

Master of Education with a Major in Instructional Technology

The Instructional Technology (IT) M.Ed. degree allows candidates to obtain an advanced degree in the rapidly growing field of Instructional Technology. By completing this degree and passing the GA content assessment for the field that aligns with the candidate's program of study, the candidate will be able to add either the area of instructional technology or media specialist to a GA educator certificate and upgrade to the 5th year level. Twelve hours of advanced level course work focused on the content pedagogy in the candidate's area of previous certification is required by GaPSC Rule 505-3.54 for Instructional Technology Certification.

There are three concentrations in the Instructional Technology Program:

P-12 Technology Applications (for P-12 public school personnel), Technology Applications (for non P-12 public school personnel), and Library Media. The Technology Applications Concentration prepares candidates to be technology coaches, technology coordinators, or instructional technologists in a variety of context: public schools, business, industry, government, the military, health fields, and higher education. The Library Media Concentration prepares candidates to be school media specialists.

This online program offers participants the opportunity to complete all course work and field experiences at a distance using the Internet and the VSU Course Management System. Experiential learning and application of knowledge are vital components of each class.

Technology Applications Concentration (P-12 and non P-12)

Selected Educational Outcomes

1. Candidates will demonstrate an adequate understanding of the knowledge expected in their fields and delineated in professional, state, and institutional standards while simultaneously demonstrating professional growth and development.
2. Candidates will use data and current research to inform their practices and enhance their leadership role in designing, developing, utilizing, managing, and evaluating instructional technology.
3. Candidates will demonstrate the knowledge, skills, and dispositions to create positive environments for teaching and learning.
4. Candidates will understand and build upon the developmental levels of students with whom they work; the diversity of students, families, and communities; and the policy contexts within which they work as they model and facilitate best practices, digital citizenship, and informative program evaluation.

Examples of Outcome Assessments

1. Candidates will demonstrate content knowledge through course-based content assessments, a state-based content exam, and a portfolio.
2. Candidates will demonstrate their ability to use data and current research to inform their practice through completion of a review of literature.
3. Candidates will demonstrate their ability to create positive environments for student learning during field-based projects related to digital learning environments.
4. Candidates will demonstrate their ability to professionally build upon their knowledge of students, learning, diversity, evaluation, and instruction by completing a program evaluation and a proposed plan of action.

Prior to admission to any graduate program at Valdosta State University, applicants must first submit a completed application to the Graduate School. A completed application packet includes official transcripts from all institutions previously attended, official test scores (GRE or MAT), completed application form, fee, and any additional program requirements, submitted by the admission deadline. To be considered for the preferred term, all required materials must be received by the Graduate School no later than the close of business on the deadline. It is the responsibility of the applicant to allow adequate time for document submission and to ensure receipt of documents.

Admission Deadlines

- Fall Deadline: July 15
- Spring Deadline: November 15
- Summer Deadline: April 15

Internship		3
ITED 7299	Internship in School Media Centers	3
Total Hours Required for the Degree		36

Prior to recommendation for library media certification, the applicant must pass the GACE Content Assessment Test for Media Specialist and complete an approved program for recommendation for certification.

Corporate Training Concentration

This degree/concentration does not result in the awarding of teaching certificates, as defined by the Georgia Professional Standards Commission. It does, however, facilitate students' attainment of the following industry certificates:

- Adobe Certified Associate in Photoshop
- Adobe Certified Associate in Premiere
- Adobe Certified Associate in Dreamweaver
- Project Management Institute's Certified Associate in Project Management

Selected Educational Outcomes

1. Candidates will create multimedia products (i.e., video, audio, photos/graphics) suitable for use in corporate training materials and programs.
2. Candidates will employ appropriate instructional design models to develop online and face-to-face instructional materials.
3. Candidates will perform managerial tasks essential for operating instructional programs (i.e., program evaluation, project management).

Examples of Outcome Assessments

1. Candidates will conceive, shoot, edit, and render professional quality instructional videos suitable for use in a corporate training program.
2. Candidates will produce complete instructional units suitable for delivery in corporate training programs in both traditional and online formats.
3. Candidates will conduct holistic evaluations of established corporate training programs and generate recommendations for improving operations.
