Room 2035, Bailey Science Center*

*Dr. James T. Baxter, Head, Department of Chemistry  
Room 3025, Bailey Science Center*

Most programs in the health professions require four years of study to complete the degree requirements that are prerequisite for eligibility to take licensing or certification exams. Valdosta State University provides two- or three-year pre-professional programs in the allied health fields listed below.

After completing one of these junior college curricula, students may qualify for the Associate of Arts degree from Valdosta State University and are eligible to apply for admission to an appropriate institution for completion of the professional training required for the baccalaureate degree.

Students interested in academic work listed below in preparation for admission to institutions where the professional training can be completed will be advised in the Department of Biology.

Community Health Nutrition  
Medical Records Administration  
Occupational Therapy  
Pathologist's Assistant  
Physician's Assistant  
Dental Hygiene  
Medical Technology  
Optometry  
Physical Therapy  
Respiratory Therapy

## Pharmacy

Students interested in pharmacy in preparation for admission to institutions where the professional training can be completed will be advised in the Department of Chemistry.
