

# Graduate Courses of Instruction

---

Sections of courses are listed in alphabetical order, by the prefix of the academic discipline.

Most credit notations on the far right are in the pattern 3-0-3. The first number is the number of lecture hours (or equivalent) each week; the second number is the number of laboratory hours (or equivalent) each week; the third number is the number of semester hours credit. The suffix "K" designates courses in which a laboratory is included; the suffix "L" designates a lab course that is separate.
