

# Bachelor of Business Administration with a Major in General Business (Online)

The general business major is designed to give students the basic knowledge, skills, and values of business administration that build on the foundation provided by the University Core Curriculum and that are required for professional careers in business. The program of study provides courses in key areas of business education: accounting, economics, management, and marketing. The program stresses the importance of critical thinking skills, diverse cultural perspectives, and ethical awareness.

## Selected Educational Outcomes

General Business majors will

1. demonstrate knowledge of business concepts and processes and their applications in organizations;
2. plan, organize, lead, and control in a variety of organizations and cultures;
3. recognize and resolve business issues using quantitative and interpersonal skills.

Educational outcomes are assessed by embedded test items in major courses, internship evaluations, and examination of projects.
