

Bachelor of Science in Education with a Major in Elementary Education (Online)

The major in Elementary Education results in initial GaPSC certification in Early Childhood (P-5). The program is designed to prepare professional educators who manifest the knowledge, dispositions, and competencies deemed necessary to enhance young children's overall intellectual, social, emotional, and personal growth and development.

Selected Educational Outcomes

1. Program graduates will demonstrate an acceptable level of content knowledge.
2. Program graduates will demonstrate an acceptable level of teaching competency for an extended period of time during the clinical practice experience by planning, delivering, and assessing appropriate instruction for students who represent a diverse population and who are in public school settings.
3. Program graduates will integrate technology into instruction, assessment, and communication.
4. Program graduates will demonstrate characteristics of reflective practitioners by evaluating the effects of choices and actions on others (students, families, and other professionals in the learning community).

Examples of Outcome Assessments

1. Teacher candidates in initial teacher education programs will demonstrate content knowledge through passing the state-required content assessment.
2. Teacher candidates in initial teacher education programs will demonstrate pedagogical content knowledge and knowledge of evidence-based strategies through development of lesson plans identifying use of research-validated procedures and effective content pedagogy.
3. Teacher candidates in initial teacher education programs will demonstrate skills in assessment, instructional strategies, use of technology, and monitoring and modifying instruction during observed teaching episodes evaluated by a university supervisor and P-5 mentor teacher.
4. Teacher candidates in initial teacher education programs will demonstrate their ability to positively impact P-5 learning through an Impact on Student Learning project.
